

## Transportation Committee

The Transportation Committee is an important institutions for Exeter's residents. Like many places in America, it is difficult to get a round Exeter and the Seacoast without a car. Unfortunately Many of Exeter's residents do not have access to a vehicle.

To combat this problem the Transportation Committee has worked with multiple entities to help provide transportation for Exeter Residents. Programs like Transportation Assistance for Senior Citizens pairs elderly residents with volunteer drivers.

Rockingham Nutrition and Meals on Wheels (RNMOW) Senior Shuttle Program provides similar services to Exeter's older and disabled citizens. Exeter also provides a Senior Tax-ticket voucher program. It provides assistance by reducing the cost to use the taxi service to get around town.
